

## Palmer College Presents: The Diplomate in Chiropractic Orthopedics

With a new cutting-edge live/online hybrid structure, learners will be able to earn diplomate eligibility in only 2 years.

Our programming is designed with a focus on clinical relevance and is fully integrative for optimum use in clinical applications. Each module will incorporate appropriate topics in physical exam, chiropractic assessment, orthopedic assessment, neurological assessment, imaging, diagnostics, laboratory analysis, nutrition, biomechanics and rehabilitation and will feature the analysis of specific case studies and conditions including visceral and systemic conditions.

17 live weekends and an online/self-study equivalent prepare candidates to sit for the American of Chiropractic Orthopedics (D.A.C.O.) diplomate examination.

**PALMER**  
College of Chiropractic
