

July 2003

From the Desk of J. R. Brandt DC, FACO
President, Academy of Chiropractic Orthopedists

Good morning!

Great news! The contract has been signed with CPS for the Academy members discount on office supplies with Corporate Express. Details will be mailed to you later this month or in early August. The requirements and protocols will be outlined at that time. The chiropractic supplies will be through Meyer Distributing. Meyer has been a long time Chiropractic supplier, advertiser and supports the profession. This could save you significant money during the year. The Academy is continuing to look for ways to help the members.

The new web case has been put together and should appear soon on the website. We are continually looking for some good cases, 250-400 words minimum. If you have some digital photos send them with the case. Hours for re-credentialing will be given for each accepted case! If you have some excellent results with case management please share it with the membership. If you have an article that you would like to comment on, send it in with your comments.

The Academy is collecting website addresses that could be of assistance to the chiropractic orthopedist. They will be listed on our website (www.dorthoacademy.com), where you can check out their usefulness to you. Please send any URL's you have found useful to the e-mail address of the Academy (bulletin @fcer.org). They will be noted in the next e-letter and then be listed on the website.

Please check our website at www.dorthoacademy.com from time to time. New information, announcements and changes will be posted without notice.

The Academy appreciates your interest and participating in the movement to improve the specialty. Thanks!
